01. Market Commentary

DSEX ended in red for the week decreasing by 57.82 points [1.07%] compared to the previous week. It stands at 5350.25 points.

The index fell again for the second straight week after undergoing a winning streak for eight consecutive weeks as sellers preferred to take profits to capitalize on the gains from the eight weeks. The index continued to go down in line with the previous trading sessions in the previous week with some miniscule falls in alternate trading days. However, the final trading day saw a rise as buyers took position in lucrative large cap scrips to help recoup the index fall.

Investor participation fell as reflected by decrease in average daily turnover by around 24% causing the average daily turnover to fall below the BDT 700 Crore level. Investors' trades in this week focused on Pharmaceuticals scrips followed by Bank and Textile scrips. In terms of sectoral returns, the Jute sector posted 12.15% return while, the Insurance sector went negative 8.88%.

Market capitalization stands at USD 58.5 Billion*.

*(USD 1 = BDT 121.59 as on August 14, 2025).
