01. Market Commentary

DSEX ended in red for the week decreasing by 34.62 points [0.59%] compared to the previous week. It stands at 5860.96 points.

Index fell this week after consolidating in the 5900 level and failed to break above the resistance zone. Amidst the ongoing fuel and gas crisis along with the resumed middle east tensions, investors preferred to sell their holdings. In all of the trading days of the week the buying and selling pressure were neck and neck, however, in the last trading day, the sellers availed control. Although, the central bank reduced its policy rate by 50 basis points, it remains to be seen what impact this change may bring for the listed companies in future and the investor sentiment in this regard.

Investor participation increased by 11.5% compared to the previous week, increasing the average daily turnover above BDT 1,100 Crore level. Investors' trades in this week focused on Textile scrips followed by General Insurance and Pharmaceuticals scrips. In terms of sectoral returns, the Mutual Funds sector was the highest positive with 4.91% while the Food & Allied sector was the highest negative with -2.85%.

Market capitalization stands at USD 57.2 Billion*.

*(USD 1 = BDT 123.71 as on August 06, 2026).

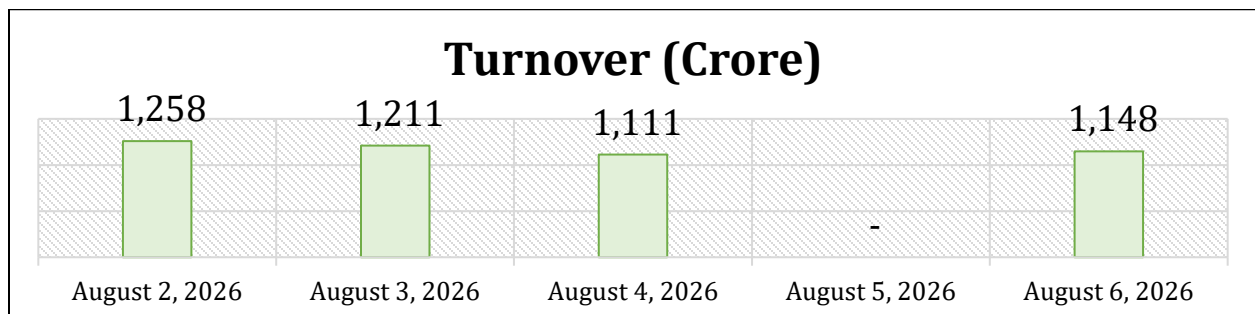

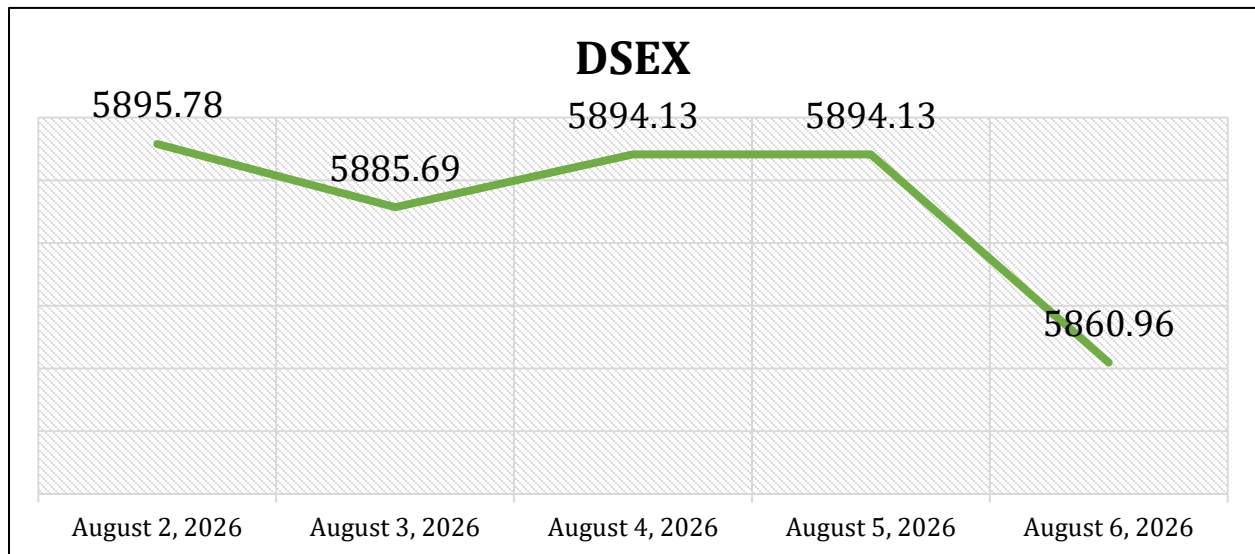

02. Related Regulatory Decisions

There were no related regulatory decisions taken during the week.

03.Secondary Market Highlights

Index Scenario

Indices	Current Week Aug 06 2026	Previous Week Jul 30 2026	Change	% Change
